OVERVIEW

An induction cooktop that heats the pan directly for fast, controllable cooking and a cooler kitchen. Highlights: 5 KW Cooking Areas - Cooking Areas Demarcated By a Circular 260 Mm Screen Print, with 5 KW Power in Each Area - Quick Heating and Ideal for La Carte Service.; Heats Only the Pan - Energy is Only Transferred to the Area Below the Container, and the Rest of the Vitro Ceramic Surface Remains Cold. It Operates When It Detects the Presence of the Container; When the Container is Removed, It Stops Heating.; Lower Energy Use - Energy Use is Reduced By Around 50% Compared to Gas Burners, and Reduced Heat Radiation Keeps the Working Environment More Comfortable.; Safety - Safety Against Overheating, with Error Messages Shown Through Flashing Lights..
